Summary

Working as a Repair Technician for 7 Years I developed an aptitude for problem solving and diagnosing issues in a variety of situations.

Introduced to programming via friends, I was always curious about the world of software development but after composing a few simple scripts in summer 2021, I was hooked.

PROJECTS

Ecommerce Website

Tools

- Flask - Stripe API - SQL DB - Bootstrap

Trading Bot

Tools

- OOP - Gemini API - Pandas

Parkour Dinosaur

Tools

- PIL - Numpy - Selenium

Work Experience

Raymour & Flanigan, Stratford CT — Expert Furniture Tech

March 2016 - September 2021

Traveled to customers' homes to assess and complete furniture repairs ranging from minor, to extensive repairs on damaged wood/upholstery and electrical components.

Maintained, cleaned and supplied service repair vehicle. Organized and managed service schedule independently.

Doctor Soot Chimney/Masonry, Wappinger Falls NY

September 2015 - AUGUST 2016

Inspected, evaluated and diagnosed chimneys and appliances to provide detailed reports and estimates to HQ.

Performed masonry repairs, chimney crowns, repointing/tuckpointing, and flashing. Installed wood burning, gas and pellet stoves, along with venting systems to meet NFPA standards
